

## PERRY-WORTH ROAD REALIGNMENT UPDATE

After many delays due to and very wet and cold winter and the 2<sup>nd</sup> rainiest June/July on record, the Perry-Worth Road Realignment Project is nearing substantial completion. The paving of the roadway is complete. The roadway will now be signed and striped, signal loops will be installed and side paths will be paved. The Town will open the road in the coming days.

The Town is also working to construct a new road that will connect the first (south) Anson roundabout to the new Perry-Worth Road. The Town hopes to complete this project by late fall of 2015.
